

Livescoring for Showjumping on Main-Events.com

Use **ENTRY NOTES** to record **RET** (retired), **ELIM** (eliminated) or **DNS** (did not start). Type in **999** as the faults score in the round where elimination or retirement occurred. Leave Rnd1 scores in place if horse was eliminated/retired in second or jump off rounds. Don't worry about the DNS horses as the office will need to check those anyway.

If a horse is not in the class list - don't worry. All scores are checked by the office - they can be added in at that stage.

Ringside Scoring	Ringside Scoring	Ringside Scoring
<p>One Round - no jump off Type faults and times directly in the FINAL score area as shown. Don't forget to SAVE. If eliminated or retired, type in 999 for the Total Faults and type ELIM or RET in the Entry Notes.</p>	<p>One Round with jump off BUT incurred faults in first round Important to set Qualify For Final/Jo to FALSE. Do not put anything into Total Faults. If eliminated or retired type in 999 as faults in round.</p>	<p>One Round with jump off and CLEAR in first round Important to set Qualify For Final/Jo to TRUE Ignore Rnd 2 boxes - put jump off time & faults into the Total Faults and Time JO. Type in 999 if elim/ret.</p>

Two Phase

Clear faults in first round can continue on to second phase. . If judges don't call out a Rnd 1 Time, leave blank. If clear in the first phase, it is important to set **Qualify For Final/JO to TRUE.**

Faults and times from 2nd phase recorded **directly in the Total Faults and Time JO.**

If ELIM or RET type in **999** as faults in the round.

Power & Speed / Two Phase - Special

Record both round faults and times. As there is no jump off the **Qualify for Final?** can be left as **FALSE.** If judges don't call out a Rnd 1 Time, leave blank.

Add both round faults together and put in **TOTAL FAULTS.** And repeat the Rnd 2 Time as the **TIME JO.**

If ELIM or RET type in **999** as faults in the round.

Two Rounds with jump off

Record 1st and 2nd round faults and times as usual. If the combination was clear in **BOTH** rounds, then it is important to set **Qualify For Final/JO to TRUE.** Put their jump off faults & times in the **Total Faults** and **Time JO.**

If not in JO, add faults from both rounds & enter into **Total Faults** but if combination did **NOT** qualify for 2nd round, leave **Total Faults** blank. In both cases ensure **Qualify for Final/JO is FALSE** and **Time JO** is blank.

REMEMBER - in all cases, you are NOT the judge. DO NOT put in ANY placings OR points unless the judge checks them off!
